

Mobile Print Service Terms and Conditions

Product Description

PrinterOn is a mobile printing solution that enables users to print from any smartphone, tablet, laptop or desktop, to any printer that has been designated for this purpose. PrinterOn is a cloud based subscription service that is integrated into Envisionware so that you can release print jobs just as you would with a print job sent from a managed computer. Envisionware acts as a reseller of the PrinterOn mobile print service and provides eiNetwork with a volume license discount when a minimum number of libraries participate.

Purchase Agreement

By accepting the terms and conditions below, you agree that you are authorized by your library to purchase the Envisionware PrinterOn mobile printing service for 1 year beginning March 1st.

Fees

The library agrees to pay EIN for PrinterOn Mobile Printing subscription of \$579 detailed in the on-line Order Form. Payments to EIN are within 30 days of receipt of invoice.

Library Responsibility

New Customers are responsible for opening a ticket with the help desk to have the initial site server configuration completed. Library agrees to maintain their own public facing documentation for PrinterOn Mobile Printing Service. Library is also responsible for customizing their own Print Spot portal. Library staff are responsible for opening any help desk tickets if issues arise with the mobile print service.

eiNetwork Responsibility

eiNetwork help desk will do initial PrinterOn configuration on the library site server. eiNetwork help desk will contact Envisionware or PrinterOn if libraries report any issues with this service.

Term and Termination.

Libraries agree to the one year subscription term starting March 1, 2019. There is no early termination and no refunds to the one year subscription will be issued after acceptance of this agreement. If the eiNetwork is unable to get necessary minimum number of participating libraries required for the volume discount through Envisionware, this order will be terminated.
